

Focus group discussion „Effects of the Organic Food System: (*OFS case study*)“ on (date), 2020

Consent form and information on data protection

1. Consent

I hereby give consent that my personal data in the form of original audio and video recordings can be further processed by M.Sc. Lilliana Stefanovic for the purpose of her research project.

Please note that your consent is voluntary. You can reject it without any negative consequences for you.

You can revoke your consent at any time, with the consequence that processing of your personal data would no longer be permitted upon the receipt of your declaration of revocation. This however does not apply to the data processed until the revocation according to your consent.

2. Purpose of data processing / Aim of the project

The focus group discussion „Effects of the Organic Food System in (*OFS case study*)“ is part of the PhD research project of Mrs. Lilliana Stefanovic. The aim is to study the effects (including environmental, social and economic) stemming from organic food systems in the selected European countries.

The audio and video recordings of the focus group discussion will solely serve for use by Mrs. Lilliana Stefanovic in order to transcribe the collected data in an accurate manner, without missing any relevant information.

The video and audio recordings will not be shared with third parties and will be accessible to Mrs. Lilliana Stefanovic exclusively. The video recording will be destroyed at the end of the research project.

3. Legal basis

Mrs. Lilliana Stefanovic will process the collected personal data in accordance with Art. 6 §. 1 p. 1 sec. a of the General Data Protection Regulation.

4. Storage period for the collected personal data storage

The collected personal data will be stored till the project end, with audio recording being stored until 2025 and video recording being destroyed directly at the end of the project, by the beginning of 2021 at the latest.
