

Labelling of the samples in the datasets (block, row, direction, surrounding) according to the drawings on the following pages.

The abbreviations for carabids consist of the first three letters of the genus and species names (e.g. BEMLAM for *Bembidion lampros*), with 'SPP' being used for individuals that could not be identified at species level.

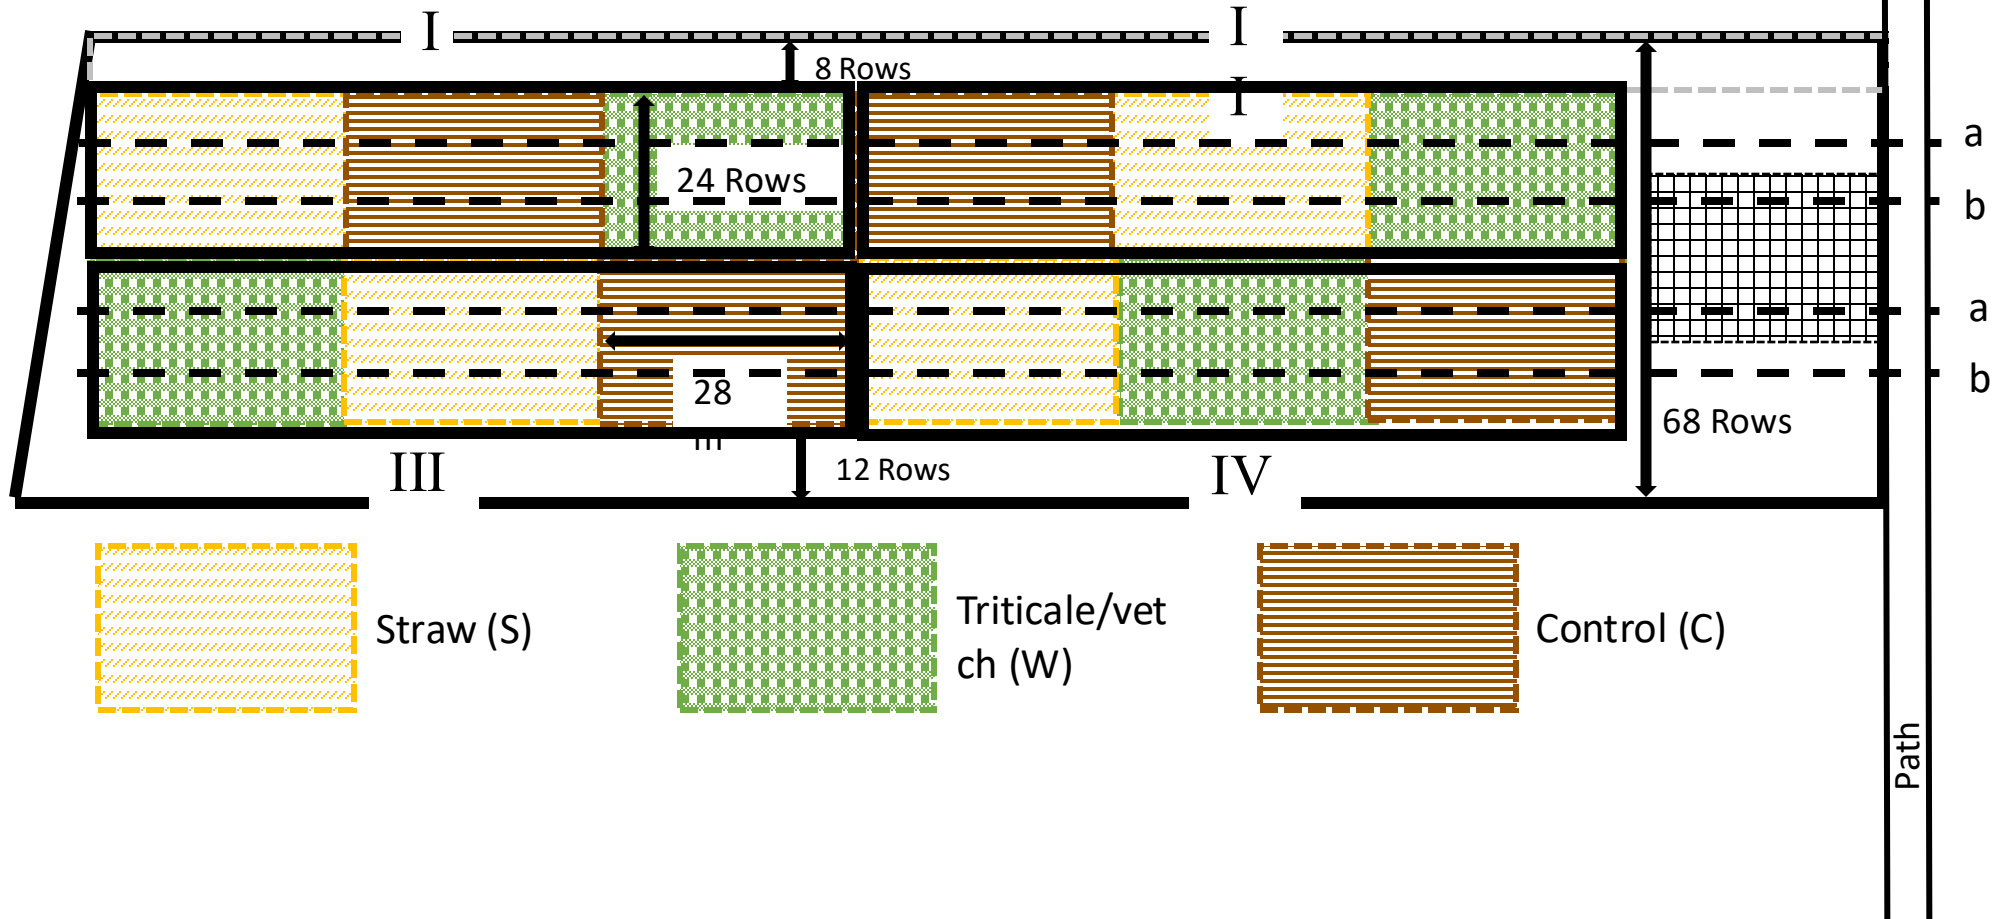

Labelling pitfall traps

Farmer	RS
Block	I / II / III / IV
Treatment	S / W / C
Row	A / B
Direction	W / O
Surrounding	M / -

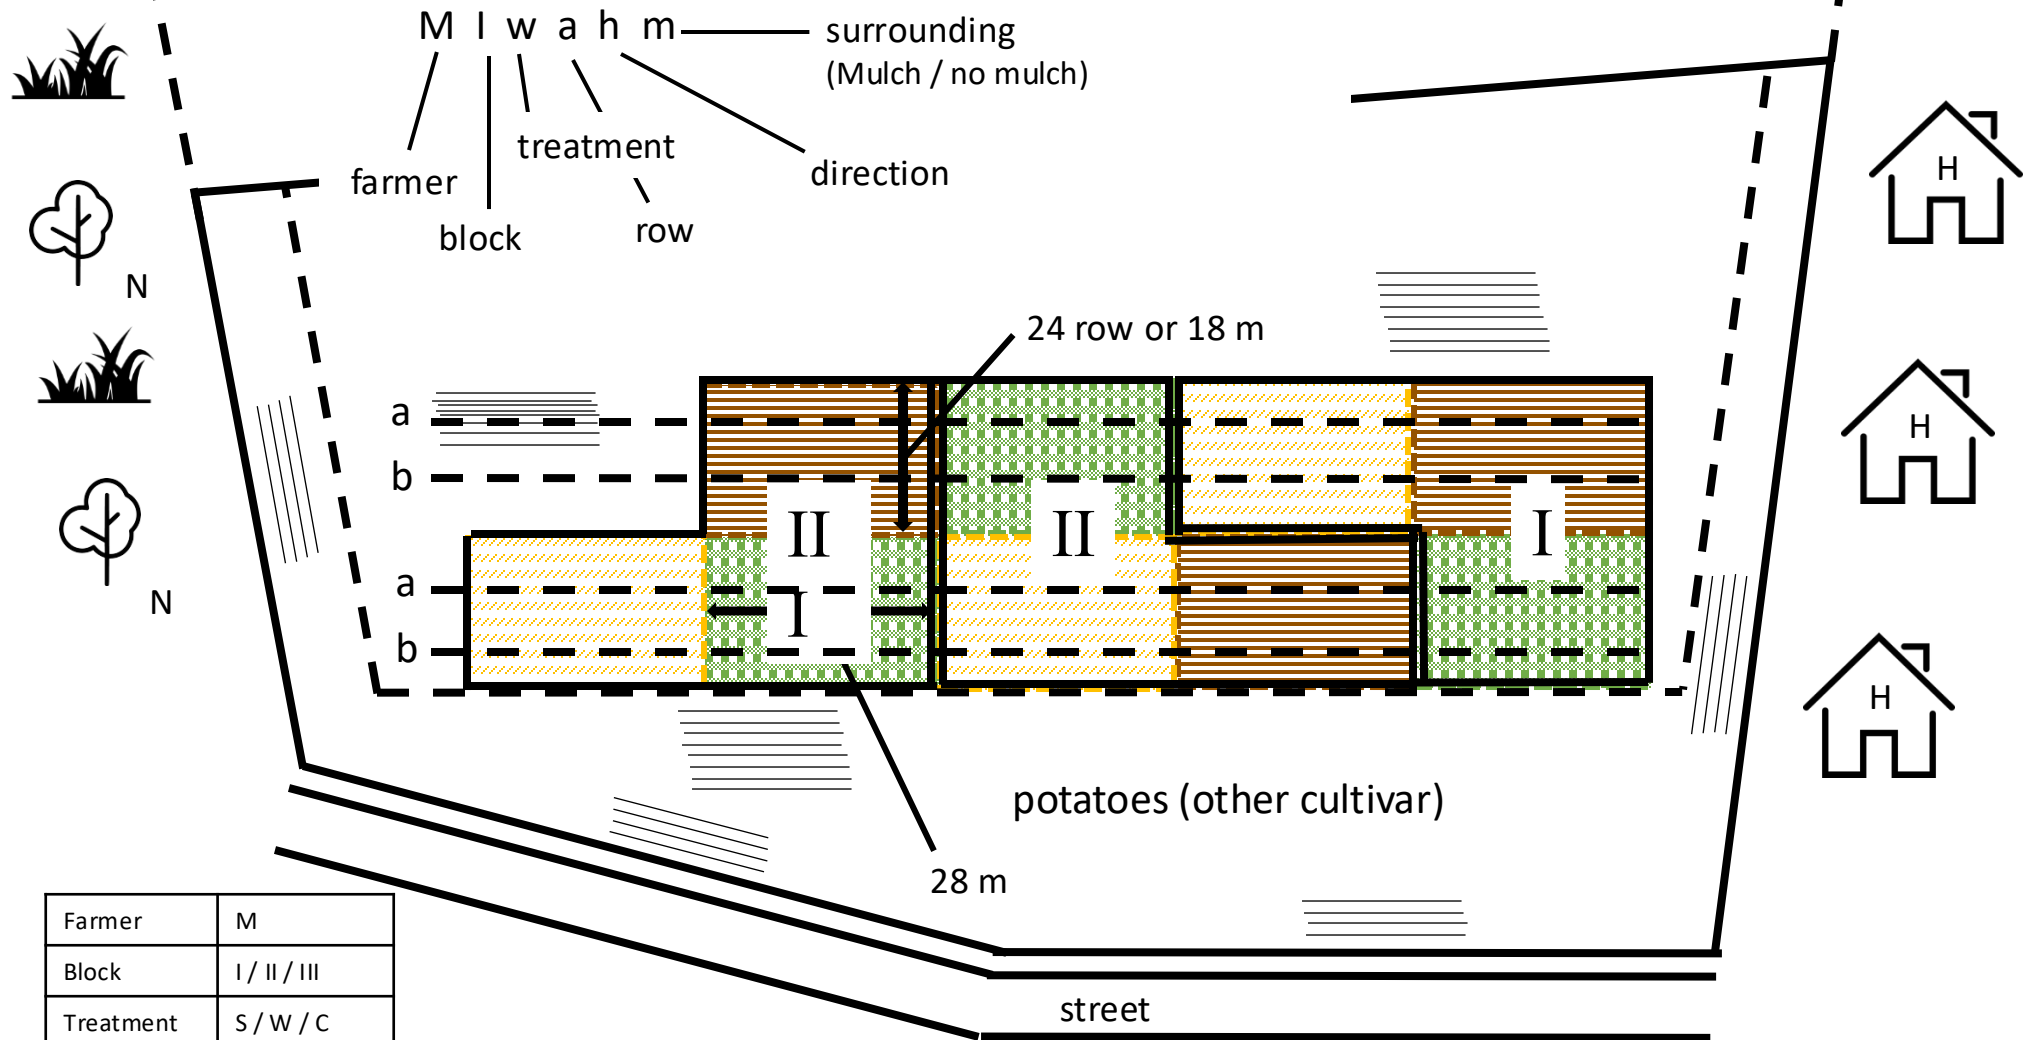

Trial 2021a (RS)

Labelling pitfall traps

Trial 2021b (MS)

Farmer	M
Block	I / II / III
Treatment	S / W / C
Row	A / B
